ENHANCE EVERY INTERACTIVE EXPERIENCE WITH AN OPTOMA MULTI-TOUCH DISPLAY

Optoma interactive flat panel displays

Boasting 4K UHD resolution and up to 20-point multi-touch capabilities, Optoma interactive flat panel displays (IFPDs) bring lessons and idea sharing to life in both education and business settings.

Available in 65", 75" and 86" sizes and featuring anti-glare / scratch resistant glass, low blue light filter (TUV certified low blue light content) and a wide viewing angle, they reduce eye strain while providing crisp and vivid visuals to every seat in the room.

Easier on your eyes

Optoma interactive displays feature a low blue light filter – certified by independent world leaders in product testing, TÜV Rheinland. This certifies that Optoma IFPDs produce no hazardous UV light and emit minimal blue light (which can cause eyestrain and tiredness).

Easy file management

With powerful functions and intuitive interface, Optoma file manager allows users to manage files and folders. Users can also access cloud drives, browse, create, rename, copy, move and delete files.

Intuitive whiteboard annotation

Creative sharing is easy with a ready-to-use whiteboard featuring built-in annotation tools that encourage collaboration.

Stay connected

In addition to wireless sharing, numerous connectivity options are available including 3x HDMI, 1x VGA, and for additional flexibility an OPS slot. It also features an HDMI output which is useful for connecting an external display.

EXPERIENCE ADDED FEATURES WITH THE 5 SERIES PREMIUM INTERACTIVE DISPLAY RANGE

Optoma quick draw pen

Be ready to start the lesson in seconds with the Optoma quick draw pen. Just take the pen from the holder and the whiteboard application will automatically be activated, saving you time and delivering a familiar feel of using a marker.

Realistic writing experience

The 5 Series comes with a double tipped pen to help you switch quickly from precise lines to broader sweeps. In addition, the 1mm air gap screen feature ensures this is one of the most realistic writing experiences yet.

Slim bezel

The slim bezel design means that even when not in use, the 5 Series is an attractive centre piece. When in use, you have a stylish frame to share your chosen content, adding a touch of elegance to a highly functional device.

Dual App mode

View two apps, on your device, at the same time. Easily copy and paste text from one app to another, or watch a video while you scan Office documents, you can do that easily without the need for an OPS.

BUILT FOR THE BEST COLLABORATIVE EXPERIENCE

Joan meeting widget

With the number of meetings increasing, office space has become the second-biggest expense for organisations. And when these are poorly planned or managed, the effects are reflected in poor office workforce satisfaction and lack of productivity.

Optoma has partnered with Joan, a leading meeting room software provider, to deliver a free of charge meeting room solution on Optoma IFPDs.

Quickly find and schedule meeting rooms, huddle spaces and workstations. Book meetings on the spot or through your existing desktop calendar and mobile phone.

Connect a webcam

Optoma's range of Creative Touch interactive displays are perfectly suited to the ever changing educational and business needs.

You can connect practically any webcam giving you the ability to work together from remote locations. When combined with Optoma software, they provide the ultimate collaboration experience.

SOCIAL DISTANCING MADE EASY - CONNECT ANYWHERE WITH TAPCAST

Wireless content sharing

Wirelessly display and share content on a big screen without any additional hardware using the Optoma TapCast™ app. You can easily mirror your screen or wirelessly cast documents, images or videos stored on your PC, tablet and smart phone at the touch of a button. Bringing your own device has never been easier.

Operating system	Available version
Windows	Windows 7/8/10
Mac	OSX 10.8 or later
iPhone	IOS 9.0 or later
Android	Android 5.0 or later
Chrome book	Chrome OS 65 or later

Multi to 1 feature

- Stream content from up to 4 devices without cables
- Only requires an App / Windows / Mac software

Simple content sharing

- Only TapCast pro required
- Recent update – main device can be a mirrored screen or extended

3 SERIES SPECIFICATION

MODEL	65" 4K	75" 4K	86" 4K
	3651RK	3751RK	3861RK
DISPLAY			
Size	65"	75"	86"
Aspect ratio	16:9		
Resolution	3840 x 2160 (4k UHD)		
Back light unit	Direct type LED		
Response time (typ.)	8ms		
Refreshing frequency	60Hz		
Display colours	1.07 B (10bit)		
Brightness	370 cd/m2 (typ.)		
Dynamic contrast ratio	4000:1		
View angle	178°		
Life time	50,000 hr		
Ambient light sensor	Yes		
Pen holder	Not available		
AUDIO			
Speaker type	Built-in speaker		
Output power	15W x2		
CONNECTIVITY			
HDMI IN 2.0	3

OPTIONAL ACCESSORIES

"We recommended the Optoma IFP because it is so much more cutting-edge than a standard projected display and will give the library more flexibility in this multi-function meeting space. You can interact with these displays in so many ways such as the voting functionality to take polls, screensharing, annotating documents and much more."

Peter Harvey | Team Leader at Hughes
