

# BE Live5

Wireless Bluetooth in-ear headphones

---

- **Ultimate sound quality - Featuring Bluetooth with AAC and aptX®**
- **More listening time - Incredible battery life of up to 8 hours**
- **Ultra-lightweight solid metal casing - Better sounding, tougher, water-resistant (IPX5 certified)**
- **Rock solid wireless performance - Cordless experience with exceptional 30 metre Bluetooth® range**

The BE Live5 wireless in-ear headphones is the next evolution of the BE6i, offering the same high-quality audio performance combined with an even better cordless experience with a smaller form-factor for a snug and secure fit.

They have a similar stylish design and offer an incredible battery life of up to 8 hours. The new model is also IPX5 certified making them durable and ensuring protection from sweat and water.
